COLOURING SHEETS

SUITABLE FOR ALL AGES

1. The set contains 2 colouring sheets. Each coloring sheet is connected to a quiz. One coloring sheet is recommended for younger pupils while the other one is for older kids.

2. All questions are about cyber-security and the online world. A child has to answer all the questions in the quiz correctly. We need the help of a parent or adult as well to control if the answers are right.

3. If a child doesn't know all the right answers, don't worry! You can always disscus unkown topics or new words that the child doesn't understand yet. After all, that's the point of our game!

4. Blank spaces on the colouring sheet are numbered. After a child answers all the questions in the quiz correctly, the parent will show him or her the colour key - colours linked to the numbers on the colouring sheets.

5. The correct answer to a question will reveal the colour of a blank space so that the child can fill it in correctly.

6. The colouring sheets also contain blank pieces without numbers. Kids can colour them as they wish. And, finally, the colouring sheets can be reused and coloured in by children with no rules, just the limits of theirown imagination.

COLOURING SHEET FOR YOUNGER PUPILS
