DOMINO

SUITABLE FOR OLDER KIDS

1. The set contains a pack of printable cards designed as a domino game. Each card has 2 sides with characters from the Hey PUG! series and features cybersecurity-related words.
2. All you need to play this game is the printout and a pair of scissors.
3. Hand out a number of cards – you can choose the number to set the difficulty.
4. If you want to play by yourself, you have to use all the cards in the fewest moves to win the game. If you are going to play in a group, shuffle the deck, each player randomly picks a certain number of cards and tries to get rid of all their cards first.
5. After playing this game, start a discussion about the words the kids don't understand or about the whole topic of internet safety. For more information, visit https://saferkidsonline.eset.com/.

NOTE: We recommend following the marked age group (younger/all ages or older kids) to make sure all the words are age appropriate. Feel free to mix and match cards from both decks as you see fit.
