PEXESO

SUITABLE FOR OLDER KIDS

1. The set contains 15 pairs of playing cards featuring characters from the Hey PUG! series and words related to cybersecurity.
2. All you need to play this game is the printout, glue and a pair of scissors. Print out the set and have the kids cut them out, fold them in the middle and glue them together as if they were printed on both sides - or do it yourself.
3. Shuffle the cards and place them on the table with the character side facing down.
4. The goal of the game is to choose one card and find its counterpart with the same character and text. If you find the correct pair, you get one point, and if you can explain the word correctly, you get 2 points.
5. The winner is the one with the most points after there are no cards left on the table.
6. After playing this game, start a discussion about the words the kids don't understand or about the whole topic of internet safety. For more information, visit https://saferkidsonline.eset.com/.

NOTE: We recommend following the marked age group (younger/all ages or older kids) to make sure all the words are age appropriate. Feel free to mix and match cards from both decks as you see fit.
